Call to Order / Roll Call

Chair Edwards called the meeting to order at 1:33 p.m.

Committee members present: Alvin Edwards - Chair
Amy Anderson
Karen Paull

Committee members absent: None

District staff members present: David J. Stoldt, General Manager
Stephanie Locke, Water Demand Manager
Stephanie Kister Campbell, Conservation Analyst
Gabriela Bravo, Conservation Analyst

District staff members absent: Sara Reyes, Board Clerk

District Counsel Present: Michael Laredo with DeLay and Laredo
Fran Farina with DeLay and Laredo

Comments from the Public: Chair Edwards opened the public comment period; however, no comments were made.

Action Item

1. Consider Adoption of Committee Minutes from August 1, 2024

Chair Edwards introduced the item and opened the public comment period; however, no comments were made to the committee.

A motion was made by Director Paull, seconded by Director Anderson, to approve the August 1, 2024, Committee Meeting minutes. The motion passed on a roll-call vote with 3 Ayes (Anderson, Paull, and Edwards), and 0 Noes.

2. Review Request by Dakotah Bertsch to Reinstate Water Credit for Rainwater/Greywater Systems

Chair Edwards introduced the item. Stephanie Locke, Water Demand Manager provided an overview of this item and reported that the District received a letter on September 9, 2024, from Dakotah Bertsch, requesting the Board reinstate a Water Use Credit for the installation of

rainwater or greywater plumbing systems to flush toilets and/or wash laundry. Committee discussion followed.

Chair Edwards opened the public comment period, and the following comment was made to the committee:

- (1) Dakotah Bertsch, Landscape Architecture, reviewed the letter he sent to the Board and explained the process he follows with the Building and Health departments for clients who have successfully implemented rainwater and greywater systems. He asked that these clients receive water credits if they choose to in the future.

After some discussion, the Committee agreed with the staff’s recommendation that no action be taken. Additionally, Chair Edwards requested that the General Manager report on this to the full Board at their October 21, 2024, meeting.

3. Discuss and Provide Direction to Staff on Open Water Permits

Chair Edwards introduced the item. Stephanie Kister Campbell, Conservation Analyst, provided an overview of this item to the Committee. Stephanie Locke, Water Demand Manager, then answered questions from the Committee. Staff reported this matter will be presented to the full Board at its October 21, 2024 meeting.

Discussion Items

4. Update on 2024-2025 Water Allocation Process

Chair Edwards introduced the item. General Manager Stoldt provided a brief report on this item and mentioned that he met with the Technical Advisory Group, which included City Managers, Planning Directors, the Naval Support Activity Monterey, the Monterey County Water Resources Agency, and Housing and Community Development on September 12, 2024. Mr. Stoldt noted that this will be a discussion item for the Board on October 21, 2024. Committee discussion followed after which he will be presenting to each jurisdiction’s council/board.

Suggest Items to be Placed on a Future Agenda

Chair Edwards introduced the item. The committee discussed future topics of interest, but no items were formally suggested.

Adjournment

There being no further business, Chair Edwards adjourned the meeting at 3:02 p.m.

2. CONSIDER RECOMMENDATION TO BOARD ON FIRST READING OF ORDINANCE NO. 196 ESTABLISHING ALLOCATIONS OF WATER FROM THE PURE WATER MONTEREY EXPANSION PROJECT

Meeting Date: December 5, 2024 **Budgeted:** N/A
From: David Stoldt **Program/** N/A
 General Manager **Line Item No.:**
Prepared By: Stephanie Locke **Cost Estimate:** N/A

General Counsel Review: Yes.
Committee Recommendation: N/A
CEQA Compliance: See CEQA section of staff report.

SUMMARY: Construction of the Pure Water Monterey (PWM) Expansion project is expected to be completed in late 2025. The PWM Expansion is expected to bring the permanent replacement water supply that will enable the lifting of the cease-and-desist order (CDO) and the moratorium on the setting of new meters. Ordinance No. 196 (**Exhibit 2-A**) sets forth the process and the Jurisdictional Allocations from this new water supply.

Ordinance No. 196 allocates 371 Acre-Feet (AF) (the first allocation) of water from the PWM Expansion to the District’s Jurisdictions as follows:

Jurisdiction	Proposed PWM Expansion Allocation	Existing Allocation 10/ 31/24*	Total Allocation
Carmel	14 AF	2.479 AF	16.479 AF
Del Rey Oaks	6 AF	0 AF	6.000 AF
Monterey	141 AF	0.479 AF	143.920 AF
Pacific Grove	32 AF	0.024 AF	32.016 AF
Sand City	14 AF	0 AF	37.163 AF
Seaside	21 AF	29.292 AF	51.760 AF
Unincorporated County	72 AF	10.930 AF	84.121 AF
Monterey Peninsula Airport District	44 AF	5.197 AF	49.197 AF
Department of Defense Sites	27 AF	0 AF	27.000 AF
District Reserve	2,175 AF	8.607 AF	2,183.607 AF

The District's General Manager met with representatives of each of the Jurisdictions in September 2024 to describe the Allocation process and the proposed Allocations and to address any concerns or questions. In addition, there have been ongoing presentations to each governing body over the past two months that will conclude with the Board of Supervisors on December 4, 2024.

CEQA: In August 2023, the Board received a technical memorandum from Rincon Consultants on the appropriate environmental action for the Allocation Process. The Technical Memorandum concluded (a) that the proposed water allocation qualifies as a project under CEQA because it is being undertaken by a public agency and has the potential for reasonably foreseeable indirect physical changes in the environment, such as facilitating land development through the provision of increased water supplies. In other words, the additional water that would be available to jurisdictions in the District's service area could facilitate development that would have otherwise been impossible due to lack of water availability; and (b) the document review determined that the Pure Water Monterey Supplemental Environmental Impact Report (EIR), SCH No. 2013051094 (2021 SEIR) certified April 2021, had already analyzed the growth-inducing and secondary environmental effects associated with the proposed water allocation, which is, in practice, a continuation of the District's existing water allocation program. Based on those findings, Rincon recommended preparation of Addendum No. 2 to the 2021 SEIR.

The District prepared the EIR Addendum pursuant to CEQA Guidelines Sections 15162 and 15164 to evaluate whether the project's environmental impacts are covered by and within the scope of the 2021 SEIR for the Expanded PWM/GWR Project. This Addendum details any changes in the project, changes in circumstances under which the project is undertaken, and/or "new information of substantial importance" that may cause one or more effects to environmental resources.

The responses therein substantiate and support the District Board's March 2024 determination that the additional water allocation is within the scope of the 2021 SEIR, does not require subsequent action under CEQA Guidelines Section 15162 and, in conjunction with the 2021 SEIR, adequately analyzes potential environmental impacts. The District Board of Directors considered and approved the Addendum in conjunction with the 2021 SEIR and found that there is substantial evidence that there will be no new significant impacts and none of the conditions described in Section 15162 of the CEQA Guidelines calling for preparation of a subsequent EIR have occurred.

RECOMMENDATION: The Water Demand Committee should review draft Ordinance No. 196 and recommend the Board approve the ordinance.

ORDINANCE NO. 196 AN ORDINANCE OF THE BOARD OF DIRECTORS OF THE MONTEREY PENINSULA WATER MANAGEMENT DISTRICT ALLOCATING WATER FROM PURE WATER MONTEREY EXPANSION

FINDINGS

1. The Monterey Peninsula Water Management District (“District”) is organized and exists under the Monterey Peninsula Water Management District Law (Chapter 527 of the Statutes of 1977, and published at Water Code Appendix, Section 118-1, et seq.) (“District Law”).
2. The District is charged under the Monterey Peninsula Water Management District Law with the integrated management of all ground and surface water resources in the Monterey Peninsula area.
3. State Water Resources Control Board (“SWRCB”) Order No. WR 95-10 dated July 6, 1995, determined that California American Water (“Cal-Am”) does not have the right to divert as much water from the Carmel River system as it did historically and is presently doing. Recognizing that the loss of a substantial portion of the water supply to the Monterey Peninsula, the SWRCB through Order WR 2009-0060 authorized Cal-Am to continue these diversion levels until 2017, and then again through Order WR 2016-0016 to 2021, at which point alternative water supplies must be made available to avoid significant threats to the health, safety and welfare of residents, businesses, visitors and property owners on the Monterey Peninsula. The urgent need to provide additional water supply to meet the needs of the people of this region is complicated by the listing of the California red-legged frog and the steelhead trout as threatened species under the federal Endangered Species Act and limitation on production from the Seaside Groundwater Basis pursuant to the Superior Court’s judgment in California American Water Company v. City of Seaside.
4. The Amended and Restated Water Purchase Agreement for the Pure Water Monterey (PWM) Expansion project was signed in March 2023. Construction of the PWM Expansion is expected to be complete in the fourth quarter of 2025. The District believes the PWM Expansion is expected to bring a permanent replacement water supply that will enable the lifting of the cease and desist order (CDO) and the moratorium on the setting of new meters.
5. The District Law grants MPWMD general and specific powers to cause sufficient water to be available for present and future beneficial use or uses of lands or inhabitants within the

District. MPWMD Rule 30 requires the District to establish a specific Allocation for each Jurisdiction to manage water supplies throughout the District.

6. A portion of the new supply from the PWM Expansion over and above existing demand will be allocated to local jurisdictions through this Ordinance.
7. In May 2023, the District authorized an environmental consultant to perform a literature review of Environmental Impact Reports (EIRs), Supplemental EIRs, general plans, etc. for water projects and future growth and then advise the District through a technical memorandum on the appropriate environmental action for the Allocation Process. The Technical Memorandum concluded (a) that the proposed water allocation qualifies as a project under CEQA because it is being undertaken by a public agency (the District) and has the potential for reasonably foreseeable indirect physical changes in the environment, such as facilitating land development through the provision of increased water supplies. In other words, the additional water that would be available to Jurisdictions in the Cal-Am Service Area within the District could facilitate development that would have otherwise been impossible due to lack of water availability; and (b) The document review determined that the Pure Water Monterey 2021 Supplemental EIR (SEIR) had already analyzed the growth-inducing and secondary environmental effects associated with the proposed water allocation, which is, in practice, a continuation of the District's existing water allocation program. Based on those findings, the District undertook preparation of an Addendum to the SEIR.
8. The District prepared the EIR Addendum which supported the District's determination that the additional water allocation is within the scope of the 2021 SEIR, did not require subsequent action under CEQA Guidelines Section 15162 and, in conjunction with the 2021 SEIR, adequately analyzes potential environmental impacts. The Addendum was adopted by the District Board in February 2024.

NOW THEREFORE, be it ordained as follows:

ORDINANCE

Section One: Short Title

This ordinance shall be known as the Pure Water Monterey Expansion Allocation Ordinance of the Monterey Peninsula Water Management District.

Section Two: Purpose

This ordinance establishes Allocations of water from Pure Water Monterey Expansion for delivery by California-American Water Company to the Jurisdictions in the Monterey Peninsula Water Management District.

Section Three: Amendment to Rule 33, Jurisdictional and Reserve Water Allocations

Rule 33 shall be amended as shown in bold italics for new text (*bold italics*) and strikeout (~~strikeout~~) for deletions. Table 5 shall be added (not shown in bold italics):

RULE 33 - JURISDICTIONAL AND RESERVE WATER ALLOCATIONS

A. JURISDICTIONAL ALLOCATIONS

Permits to authorize new or Intensified Water Use from the California-American Water Company shall be issued by the District for use in any Jurisdiction pursuant to the application and approval process set forth in District ~~Rule 23~~*Regulation II. Allocation of water may occur by resolution of the Board of Directors.* The total quantity of new or Intensified Water Use in each respective Jurisdiction, shall not exceed the amounts set forth in ~~this section~~*Table 5, MPWMD Cal-Am Water Allocations by Jurisdiction:*

Carmel by the Sea	19.41 Acre Feet
Del Rey Oaks	8.10 Acre Feet
Monterey (City)	76.32 Acre Feet
Pacific Grove	25.77 Acre Feet
Sand City	51.86 Acre Feet
Seaside	65.45 Acre Feet
Monterey County	87.71 Acre Feet
Monterey Peninsula Airport District	8.10 Acre Feet
District Reserve (Allocated)	15.28 Acre Feet

**: Denotes existing allocation will be changed to amount in effect at time Ordinance is adopted.*

B. DISTRICT RESERVE

The District Reserve Allocation shall refer to a quantity of water available for use at the District's discretion, including future allocation. The District Reserve Allocation can be augmented by dedications of water from a Water Entitlement, Water Use Credit, Water Credit, or a new Source of Supply.

C. WATER WEST ADJUSTMENT RESERVE

A special reserve ~~shall be~~ *has been* established to ~~replenish~~ *separate from* the Monterey County Allocation for new *and intensified* water use *approved by Monterey County* which occurs within the boundaries of the former Water West Water Distribution System *in Carmel Valley*. ~~Replenishment of Monterey County's Allocation from this special reserve shall occur only upon the approval of water use for real property within the Water West boundary. The total quantity of water use to replenish Monterey County's Allocation available pursuant to this paragraph shall not exceed 12.76 Acre-Feet (sales).~~

D. LIMIT ON FUTURE WATER ALLOCATIONS COST OF ALLOCATION

~~There will be no further allocation of water until an adequate water supply is established. There shall be no sale of water from an Allocation by a Jurisdiction. Water permitted from an Allocation shall, however, be subject to the Capacity Fee collected by the District.~~

E. RELEASE OF ALLOCATION

A Jurisdiction shall release water from an Allocation by use of the Water Release Form approved by the District. A Water Release Form shall expire after five years or more frequently as determined by the Jurisdiction. Jurisdictions are encouraged to maintain records of the release of water and expiration therein.

F. DETERMINATION OF ALLOCATIONS

The District began the process for determination of Jurisdiction Allocations in 2023, culminating in a meeting on September 12, 2024, to provide a detailed overview of the District's methodology and process for distribution of the new supplies. The process was summarized for Jurisdictions' boards and councils at subsequent public meetings.

The methodology used by the District to determine the Allocations of water to be available in 2025 included, but was not limited to:

- *The recent 5-year average water demand by Jurisdiction.*
- *Total water supplies, inclusive of the Pure Water Monterey Expansion, were calculated and the existing recent 5-year average total demand was subtracted. Of the difference, 1,000 AF was identified to be held in the District Reserve as a "factor of safety." The remainder was considered "available" for allocation.*
- *The 25-year growth rate in water demand by Jurisdiction was forecasted based upon the Association of Monterey Bay Area Governments (AMBAG) Regional Growth Forecast, utilizing population growth for future Residential water use and job growth for future Non-Residential water use.*
- *The alternate methodology of a survey was used for determining future demands for the Monterey Peninsula Airport District and the Army, Navy, and Coast Guard (Department of Defense Sites).*
- *Adjustments, if any, were made for the 6th Cycle Regional Housing Needs Allocation (RHNA).*
- *It was determined that the 25-year total increase in demand was less than the new supplies available for allocation. Based on each Jurisdiction's forecasted 25-year demand, a portion of its future demand has been Allocated from the new available supply (Pure Water Monterey Expansion) and the remainder retained in the District Reserve, available for future allocation.*
- *Existing unused Jurisdictional Allocations, as of the effective date of this Ordinance were left intact.*

G. BISHOP AND RYAN RANCH SUB-UNITS

Henceforth, water Connections in the Bishop and Ryan Ranch sub-systems of Cal-Am shall be tracked and accounted for using the same methodology as the

Main California American Water System described in Regulation II, including the requirement for authorization of water from the Jurisdiction's Allocation as described in Rule 23 and calculated in Rule 24.

H. SEPTEMBER RANCH

Water from the September Ranch Water Distribution System shall continue to supply water for the September Ranch (a.k.a. Carmel One) subdivision pursuant to approvals of the MPWMD.

Section Four: Availability of Allocations

Each Jurisdiction should limit the release of water from its Allocation to projects that will not be completed before December 31, 2025, until Pure Water Monterey Expansion has received its final approval from the City of Marina. All projects using an Allocation, with the exceptions of the Bishop, Ryan Ranch, and Hidden Hills units of Cal-Am, are subject to the moratorium on new Connections imposed by SWRCB Orders WR 2009-0060 and WR 2016-0016.

Section Five: Residential Retrofit Credit (Ordinances 74 and 90)

Ordinances No. 74 and No. 90 enacted a program allowing toilet retrofit water savings to be used to offset added water fixtures in Residential uses. The ordinances specified that the reinvested savings must be debited from a future allocation. From 1995 through 1998, 12.7 Acre-Feet (AF) of savings were used through the program. As required by the program, 12.7 AF shall be accounted for from the District Reserve Allocation.

Section Six: Effective Date

This ordinance shall take effect at 12:01 a.m. on March 1, 2025.

Section Seven: Severability

If any subdivision, paragraph, sentence, clause or phrase of this ordinance is, for any reason, held to be invalid or unenforceable by a court of competent jurisdiction, such invalidity shall not affect the validity or enforcement of the remaining portions of this ordinance, or of any other provisions of the Monterey Peninsula Water Management District Rules and Regulations. It is the District's express intent that each remaining portion would have been adopted irrespective of the fact that one or more subdivisions, paragraphs, sentences, clauses, or phrases be declared invalid or unenforceable.
